PROJECTS

Skill Bridge — AI-Powered Upskilling & Recruitment Ecosystem | 1st Place Phonix Hackathon

React, Next.js, Tailwind CSS, Node.js, Firebase, Groq, Google Gemini LLM

- Led development of an AI-driven ecosystem bridging learning and hiring, connecting students, mentors, and recruiters through verified skill validation.
- Built AI-generated problem engine that creates real-world challenges for students; solutions are mentor-validated and converted into skill badges displayed on recruiter-facing profile

WalletGuard — AI Financial Agent | HackerRank Orchestrate

Python, pandas, NumPy, Rule-Based Engine, GPT-5.6 Luna, GLM 5.3, Grok 4.6

- Built a deterministic AI financial agent that forecasts 90-day cash flow and recommends the safest way to afford a purchase, processing 250+ multi-currency requests with schema-compliant outputs.
- Engineered an oracle with a balance simulator, binary-search safe-amount optimizer, and earliest full-payment date finder, reducing manual cash-flow computation time by ~80%.

ColdCase - Forensic Code Analysis Tool | Devengers Virtual Hackathon | Solo Build

TypeScript, React 18, Vite, Tailwind CSS, Node.js, SQLite, Groq , Gemini 1.5 Pro, GitHub REST & Antideploy

- Architected an offline analysis pipeline in Node.js that clones Git repositories, extracts rename-aware commit history and blame ranges, links commits to PRs/issues via GitHub API, and builds a normalized evidence ledger with stable identifiers.
- Implemented a hotspot ranking algorithm that scores every file in the repository by a weighted combination of commit frequency, recency of last change, and author diversity, while filtering out lockfiles, vendored dependencies, generated artifacts

VIRASETU - AI-Powered Heritage Accessibility Layer | Team Project

React, Next.js, Tailwind CSS, Node.js, Firebase, Google Gemini LLM

- Developed dual AI experience modes: a Voice Agent for audio-guided tours and a Screen Agent for interactive visual exploration.
- Integrated **Groq and Gemini LLMs** for real-time contextual narration, dynamic content adaptation, and multilingual voice interaction.
